INSTRUCTIONS FOR BIDDERS – PLEASE READ BEFORE BIDDING

— TERMS OF SALE —

1. All bids are to be per Lot; no lots will be broken. In the event of identical bids on the same Lot, the Lot will be awarded to the first bid received. In the event of a dispute during floor bidding the auctioneer may at his discretion immediately put the Lot up for sale again.

2. All sales are strictly for cash in U.S. funds and must be paid for promptly upon receipt of the auction invoice and/or the coins. Lots delivered in California are subject to state sales tax unless a resale permit is on file with us. Shipping, handling, and insurance charges will be added to invoices for Lots delivered by mail.

3. Bidders not known to us must furnish satisfactory references or a deposit equal to 25% of the bids submitted (which will be applied to purchases; any difference will be billed; any overage will be refunded). We reserve the right to obtain payment in full before delivery of the Lots. Title does not pass until lots are paid for in full.

4. No "buy" or unlimited bids will be accepted. No bids will be accepted from minors. The auctioneer and/or the cataloguer reserves the right to refuse any bid which, in our opinion, is not made in good faith.

5. All items are guaranteed genuine.

6. We cannot be responsible for your errors in bidding, so check your bid sheet carefully.

7. Auction sales are not approval sales. Any Lot may be examined before bidding. No Lot may be returned by a mail bidder without our permission in writing. Requests to return coins must be made in writing within 3 days of receipt of the coins.

8. No lots may be returned for any reason by floor buyers (including those acting as agents for others). All floor sales are final.

9. Any claims involving errors in the catalogue or for other reasons must be made within 3 days of receipt of the coins. Bowers and Ruddy Galleries acts as agent for the various consignors and does not own the coins. For this reason, no claims of any kind can be considered after settlements have been made with the consignors. Any dispute after the settlement date is strictly between the bidder and the consignor, without involvement or responsibility of Bowers and Ruddy Galleries and/or the cataloguers. In the event of a typographical error or attribution error or other error, the cataloguer reserves the right to withdraw any item from sale or, if the error is discovered at a later date, to refund the buyer's money without further obligation.

10. Printed prices, catalogue values, etc. are only estimates. Higher or lower valuations may prevail. In the United States series estimates are given only on particularly expensive and/or unusual lots. We will gladly answer any other questions you might have.

11. Your submitting of bids in our sale constitutes your acceptance of the foregoing terms.

We recommend you mail your bid sheets 10 days prior to sale date.

Be sure to read the **TERMS OF SALE** as they apply to mail bidders as well as floor bidders.

THE STAFFORD COLLECTION

JUNE 25-26, 1976

Bowers & Ruddy Galleries, Inc.

Stafford Collection

Welcome to the **Stafford Collection** and other important properties—an auction sale devoted exclusively to coins of the ancient and modern world (and not including coins of the United States).

The **Stafford Collection** auction sale will take place on June 25th and June 26th in conjunction with the Long Beach International Coin and Stamp Exposition (which extends from June 24th through the 27th). We have conducted several outstanding sales in conjunction with this periodic convention before, and we thank the exposition committee for again selecting our firm to participate in this outstanding event.

A **companion sale** to the present **Stafford Collection** catalogue is the Dr. Edward B. Willing Collection auction which is devoted entirely to United States coins and which will also be sold at the Long Beach International Coin and Stamp Exposition. The Dr. Edward B. Willing Collection auction will be held on the evening of June 24th and the afternoon of June 25th. To avoid confusion with the numbering of the Willing Collection lots, the present **Stafford Collection** catalogue begins with Lot 3001. (Note: copies of the Dr. Edward B. Willing Collection sale catalogue are available for \$3 postpaid.)

The **Stafford Collection** is a delight for numismatists. Among ancient coins and coins of the world there are items in almost every series, state of preservation, and price range. Prime scarcities and rarities abound (these always create a lot of attention!), but there are also many, many fine opportunities among groups and single pieces valued at under \$100, sets, and the like.

The **sale commences** with a fine offering of ancient gold coins—Greek, Roman, and Byzantine, followed by an extensive presentation of ancient bronze and silver pieces.

Silver and minor issues of the world commence alphabetically with Lot 3142. Albania, Andorra, Argentina, Australia—and so on around the world. Reminiscent of our Dr. Paxman Collection sale a few years back are certain lots in the Australian section—Proofs of seldom-seen issues. 1925 and 1936 Melbourne Proof sets are stellar attractions in this regard. Connoisseurs of British Commonwealth Proof sets will find other delights—namely a 1956 British Honduras set and British West Africa sets of 1913, 1920-KN, and 1952. All of these are as scarce (or nearly so!) as the proverbial hen's teeth.

German coins are represented by a number of early issues of various cities and states. Then follows a special section (see beginning on page 28) of coins of Great Britain: early hammered coins, later crowns (including two nice pieces of Queen Elizabeth I), the curious Queen Anne farthing, ever-popular Maundy sets, and other desiderata—including such curiosa as Lot 3521 (you'll have to look it up to see what it is!).

Coins of the Papacy is the banner title on page 39, and it is over the notation: "Following is one of the most spectacular offerings of Papal coins ranging from 15th century issues to modern Vatican City sets. Of particular importance are the early gold specimens, many of the types having never been auctioned before in the United States!"

Starting the **Second Session** of the sale on Saturday afternoon, June 26th, are coins of Jamaica, Japan, Liberia, and then Mexico. Coins of Poland are represented by several select talers, not to overlook some desirable patterns. While Polish coins may not be in the mainstream of numismatics, we can't forget the fabulous Stanislaw Herstał Collection sale of several years ago—a superb collection of Polish coins—which

set the numismatic world on its ear by shattering all previous price records. All of which goes to prove that there is always a market for quality and rarity, whether the coins or the series are on the "best sellers" list or not! In fact, it is sometimes the out-of-the-way items which are the most interesting to the scholar and numismatist.

If you think there are errors in this catalogue, you are right. See page 53!

Canadian coins have always been a specialty of Bowers and Ruddy Galleries. Beginning with Lot 3766 the specialist in this series will have a field day! There are many scarce and rare issues, early Uncirculated coins, a smattering of specimens and Proofs, and many other interesting things to bid on. Worthy of mention here also is a nice group of Canadian paper money which begins with Lot 3992.

Gold coins of the world have their own special section in the Stafford Collection sale catalogue. Beginning with Lot 4046 you'll find gold coins from Afghanistan through Yugoslavia, with many other countries in between. There are quite a few scarcities and rarities—not to overlook items of great historical interest.

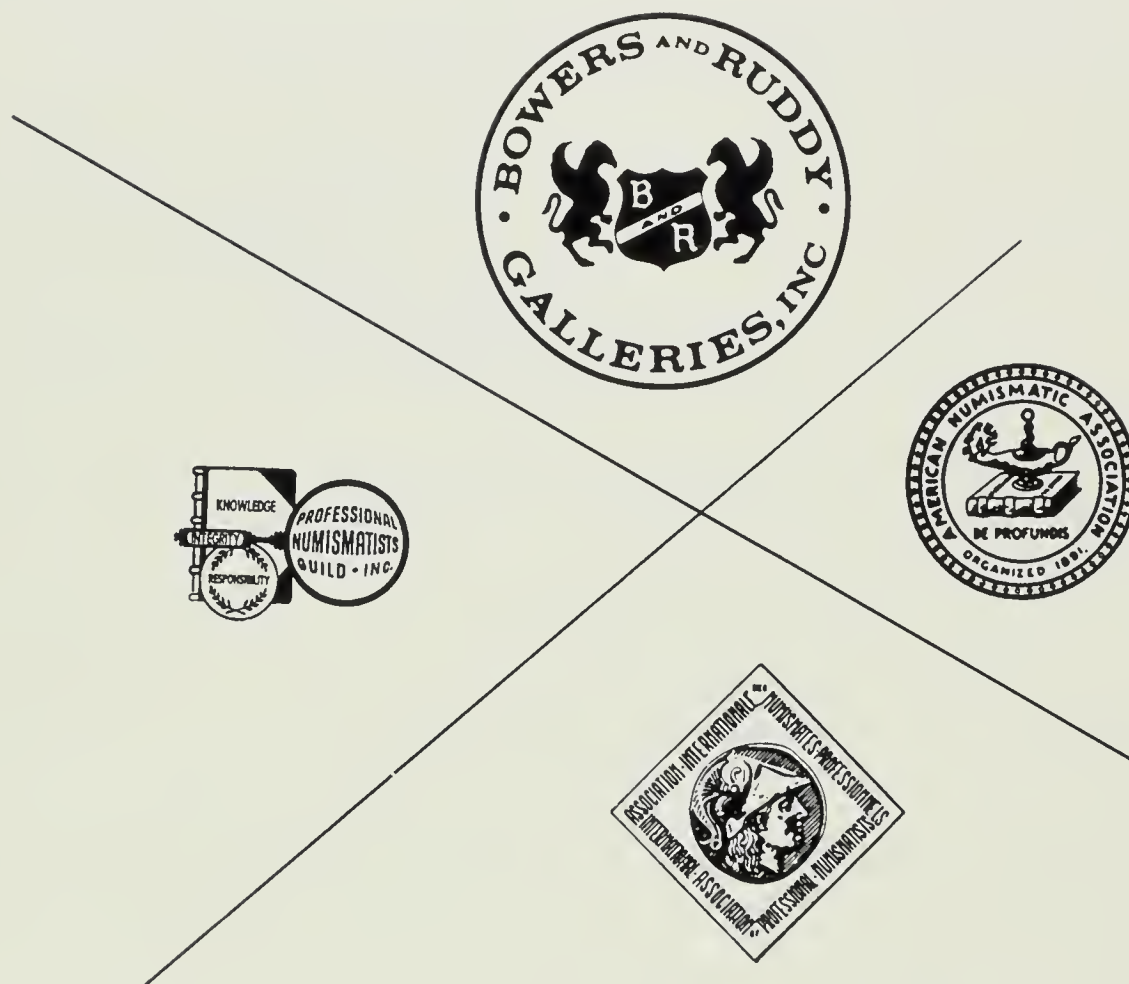

We invite you to attend the Stafford Collection auction in person. You'll enjoy examining the lots and bidding in open competition for the pieces which interest you the most. Auctions are always a lot of fun, and the present sale is no exception.

Bidding by mail is also a convenient way to participate. In fact, most of our clients bid and buy this way. With this catalogue you'll find a bid sheet and postpaid envelope-mailer for use in this regard. Just as a suggestion we would recommend that for lots you *really* want or can't live without, you bid near, at, or over the top price estimate. Then there are probably quite a few lots which you'd enjoy owning if the price is right—or a bit on the low side. For these lots why not try sending in some bids around the low side of the estimate? Who knows, you might just win some! After each sale we hear comments and laments from prospective bidders who missed out on good buys for they felt that it was no use to submit a bid—for the coin was surely going to go higher! Well, don't let this happen to you. If a coin is interesting or desirable to you, then bid on it! Any questions about any of the coins in this sale, about bidding procedures, or anything else? Then ask us!

The present catalogue is the work of many different numismatists and specialists on our large staff of nearly 40 persons. Supervising the project and doing quite a bit of the cataloguing was Judy Cahn, manager of our World Coins Department, with the assistance of Dr. Paul Rynearson (ancient coin specialist), Don Hauser (British Commonwealth, Far East, etc.), and others. And then there is our Graphic Arts Department, the many persons who help with the auction itself, and those who send out the packages after the sale. Thanks to all! Now the Stafford Collection auction sale is about to take place. Look through this catalogue carefully. See what piques your fancy. Consult the Index (page 80) so as not to miss any items of your specialty. And then send us your bids. The more items you bid on, the greater are your chances for success. Good luck! A really superb auction is about to begin. Thank you for your participation!

COINS OF THE PAPACY

Following is one of the most spectacular offerings of Papal coins ranging from 15th century issues to modern Vatican City sets. Of particular importance are the early gold specimens, many of the types never having been auctioned in the United States before! Rather than continuously expound their virtue, we will allow the coins to betray their own distinctive qualities.

Pope Eugene IV (1431-1447)

3545 Gold Ducat. F-3; Mun-3. Papal arms/St. Peter standing facing. EF. Very rare. (\$1750-\$3000)

THE BEST PRICE FOR YOUR COINS

When Armand Champa, one of America's leading numismatists, decided to sell his collection he solicited offers from leading dealers. Dissatisfied with the bids received and with the great time and effort it took to show his collection to many different people, he then consigned his magnificent collection to us for auction sale. The Armand Champa Collection sale took place and attracted international attention. When the sale was over, Mr. Champa told us that his coins sold in our sale for MORE THAN DOUBLE the highest cash offer he had previously received! So appreciative was he, that he did something unprecedented in the annals of numismatics: completely unsolicited by us, Armand Champa placed large advertisements in "The Numismatist," "Coin World," and "Numismatic News" to thank us for the great job we did for him!

Thinking of selling? Do as Mr. Champa did: consign your coins to us. It's the ideal way to sell!

CANADIAN PAPER MONEY

We are pleased to offer a collection of Canadian paper money of outstanding quality. These notes were selected by their consignor for their fresh appearance and lack of obvious circulation.

Several unusual notes are present, including an attractive four dollar note, an Uncirculated example of the Silver Jubilee commemorative note, and, what appear to be the engraver's original proofs with corrections in pencil for the rare Traders Bank of Canada \$10, 1909. A unique offering!

We hope the following definitions will be of assistance:

Counting Marks — diagonal bends near the corners of a note, normally visible when the note is lighted from a specific angle. These marks are often the result of counting the notes while bundled at the time of issue.

Printers — We have listed the printers names for the notes in our Proof and Essay section as abbreviations. These abbreviations follow the date of issue in most cases.

"Dear Mr. Ruddy:

I very much appreciated Mr. Nowicki's letter and your follow-up letter with the interesting explanation of your coin auctions, and the two very fine catalogs of the Winthrop and Kensington Collections. I have never sold any coins through an auction, but you certainly make it sound attractive!

I was particularly interested in the beautiful catalog of the Kensington Collection with its fascinating story of Mr. Zerbe and the Panama Pacific coins.

My thanks again to you and Mr. Nowicki for your friendly and informative letters." - an unsolicited testimonial from E.W.T. of Syracuse, New York
